6. The memorial should be in the form of: a structure, a body, conceptual art, or a setting. The design should transfer the concepts of innocence, oppression and courage of the martyrs. The design site lies on a 6,000 sq.m. land in the Sahel park of Bandar Abbas. The design should contain a global message and can be perceivable for all nations of the world. The design should be proportional to the site area and no more limitation is considered. The memorial can endure the hot and humid climate of the region and should not be eroded or discolored. Proper lighting of the memorial for night should be taken into account. The memorial should have a good view from all of sides.

7. The design should be sent to the secretariat of the competition as follows: The computer-aided design of the model should be sent along with a color print of the model from the four sides and a brief introduction of the artist, his/her background, description of the work and the method of rendering the model as printed. Designs should be presented in two 50x70 cm laminated sheets and sent to the secretariat of the competition. Each single individual or group is allowed to participate in the competition with only one design. No name or sign indicating the designer should be mentioned on the sheets. The designer's particulars and the work description should be sent separately.
